Hash Number **144 - The Brewhouse (AKA Buzby & Screech's abode)**

Hares: Buzby and Screech

Hashers: **Adonis, Bigfoot, Buzby, Hairy Mollusc, Lizbien, Meaty Whore, Shortie, Night Screecher, Pearl**

We all gathered at **Buzby** and **Screech's** house expecting to get drowned by the rain we had all throughout the day. Luck shone on us and the rain stopped.

Well neither the sun nor moon were going to! However **Bigfoot** swore blind that he saw the moon shining through the trees, *or was it the neighbours security light!* Who knows.

Hairy welcomed everyone with a Happy New Year and handed over to **Buzby**, the Hare for the night, who said it was a short trail to allow for more drinking, he also asked for a vote on whether to have a sweetie stop or a pub stop!! Hmmm, pub stop it was.

So off we went, 3 running, 3 walking and 3 walking the shortcut, perfek.

The trail followed the railway line through housing estates, round Exeter Services roundabout, back over the M5 and on to the Beer stop. What's this a note on the door to say the owners had gone on holiday and the pub is shut until 17th January!!!!!! NO BEER!!!!!! Not even any Sweeties!!!!

Disgruntled the three short cutters **Screech, Lizbien** and **Shortie** turned around and went back to the Blue Ball pub, which they had already passed without going in!!

Like the good hashers they are, the remaining *Thirsty* hashers followed the rest of the trail which should have gone straight passed the Blue Ball pub but **Hairy Mollusc** and **Meaty Whore** upset at missing the beer stop, ran straight into the bar (Ouch) quickly followed by **Bigfoot, Buzby, Pearl** and **Adonis** but we were not alone, **Lizbien** and **Shortie** were already there pint in hand.
